The Commissioner Bellary Municipality is requested to report urgently whether the municipal council wants the teaching grant to the Municipal High School calculated on half the net cost basis every year or whether it desires to get the fixed lump subsidy hitherto paid towards the cost of maintenance of the school. In the latter case, the question of reducing the fixed lump subsidy has to be considered

as the municipal high school has been split into two and all the muslim students have left the Municipal high school and the govt have undertaken to pay teaching grant to the new Muslim High school on the full net cost basis

Sub: Subsidy - Municipal Council, Bellary - Municipal High School- Reduction in the lump sum subsidy.

...

In G.O.No. 690 Education dated 1-4-46, the Government sanctioned the payment, as a special case, of an annual recurring subsidy towards the entire net cost of maintenance of the separate high school for Muslims proposed to be opened by the Municipal Council from 1946-7 and asked the D.P.I. to report whether after the starting of the separate high school for Muslims a reduction can be made in the fixed lump sum subsidy paid towards the cost of maintenance of the existing high schools for non-Muslims. The system of paying fixed lump subsidies has since been abolished from 1-1-47 and the Government have instead undertaken to pay teaching grants on the basis of half the net cost of maintenance of the schools in the previous year subject to the proviso that ~~in respect of~~ in the case of schools in respect of which fixed subsidies were hither-to granted teaching grants paid under the revised system should not be less than the lump sum subsidies hitherto paid.

The D.P.I. states that it follows from this that no reduction can be made in the fixed lump sum subsidy of Rs. 9750 paid for the Municipal High School, Bellary till now.

2.The Director's presumption is not correct. The proviso referred to was intended to apply only to those schools in which there was no change. On account of the opening of a separate high school for Muslims, 380 out of a total 979 students were taken away along with a staff of 10 teachers. The net cost of the maintenance of the old high school should have decreased. On the other hand, by undertaking to pay subsidy towards the entire net cost of the new Muslim high School, the Government have been put to additional expenditure. During 1947-8, they have paid the fixed lump subsidy to the Municipal High School and also an additional subsidy of Rs. 5526 to the Municipal high school for Muslims. The D.P.I. may be informed that the teaching grant to the old Municipal high school Bellary should be limited to half the approved net cost and that the proviso that it should not be less than the fixed lump sum subsidy will not apply to this high school.

Please see this dept's notes on f.1 above. Attention is in this connection invited to para 4.b of D.P.I.'s letter dated 7.4.46 at D. The dept. may agree with the views of D.P.I. at A on f.1 above. Which is in accordance with para 4.b of G.O. ch.1 at A (D)

Hon 27/10/47

I am afraid the view expressed above is not correct. The local boards have been allowed to choose to come in under the net half grant ^Scheme if they find it more advantageous and I expect that most ~~people~~ ^boards will find the net half grant more profitable than the block grant hitherto obtaining. Even if the Muslim school has been separated, what will obtain is only net half grant under fresh calculation minus the expenditure, ~~taking into account the expenditure~~ or income arising from these 300 boys leaving the school and so, the D.P.I.'s representation seems to be correct.

62346

/SA 8-11-47

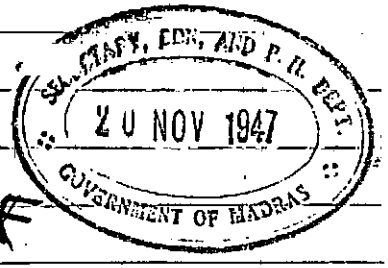
8-11-47

With reference to the minutes of H.M.(Edn) on page 2 ante, it is submitted that according to the orders in para 2 of G.O. No 975 Edn dated 10-5-47, there is no option to a local body to elect to remain under the ~~lock grant system or to come under the revised system~~ of assessment of teaching grant under the provisions of the ~~Grant-in-Aid~~ Code. ~~The order clearly says that~~ fixed lump sum subsidy system ~~will be~~ abolished from 1-1-47. The only protection afforded to schools inrespect of which fixed lump sum subsidies were hitherto paid is that the teaching grant assessed under the revised system should not be less than the subsidies hitherto paid so that financially they may be placed at a disadvantageous position on account of the introduction of the revised system. The case of the Municipal high school Bellary is peculiar in that the strength of the high school has considerably been reduced on account of the opening of a separate Muslim high school and it is therefore for consideration whether the protection given to other secpndary schools under local bodies which have not undergone any change should be extended to this high school also. It is relevent to take ~~into consideration~~ in this connection that inrespect of the new Muslim high school

newly started the Govt are meeting the entire net cost instead of the grant on the half net cost basis. It is therefore for consideration whether the municipal high school should be allowed a teaching grant equal to the fixed lump sum subsidy even if the assessed grant on the basis of the present strength of the school is less than the subsidy.

The file may be recirculated to H.M.(Edn) for orders.

If they choose to come within the half net grant-in-aid system, the question will not arise, but, if they want the lump grant, then the question of reducing it will arise, in view of the school having been split into two. The Municipality may choose between both the alternatives.



With reference to the minutes of H.M. (Edn) on page 4 ante attention is solicited to the portion marked X in the note on page 3 ante. If the option to remain under the block grant system is allowed, there will be certain local bodies receiving subsidies under the old system and others receiving teaching grants on half the net cost basis. The only protection given under para 29 of G.O. No 975 Edn dt 10.5.47, is that if the teaching grant assessed according to the procedure laid down in 32 of the Grant-in-Aid Code is less than the fixed lump sum subsidy amounts paid, the teaching grant to the institution for the year should be fixed equal to the amount of fixed lump sum subsidy

With reference to the portion marked F in the minutes of H.M. (Edn) on page 4 ante, a draft memo is submitted below for approval. It may see before issue
